### "GREEN" FIBERGLASS FREE KOOLDUCT SYSTEM EXPOSED ON MAUI

What do you do when your air conditioning ducts look so good you don't want to hide them in the ceiling. If you are the new Maui Dive Shop in the Lahaina Gateway Center and Mark Webb of Maui Air Conditioning, you install Knauf KoolDuct. KoolDuct is a revolutionary product that is 100% FIBERGLASS FREE. The installation requires no fiberglass wrap or liner and is almost 40% more energy efficient than standard R4.2 insulated duct. Maui Air Conditioning completed the installation of over 120 linear feet of KoolDuct in Maui Dive Shops new 5000 sq. ft. retail store. The installation was completed in five days using three employees and a scissor lift. The light-weight KoolDuct was hung using standard ceiling wire and clips. Mark Webb, Owner of Maui A/C now uses KoolDuct on 100% of his jobs. "The ease of installation, little or no leakage, energy efficiency and cleanliness of the product make it my only choice" Webb said. Webb also said that the KoolDuct 90 degree elbows eliminate turning vanes and increase airflow. "My employees and customers love the product. There is no better duct system on the market" according to Webb.

### SIGNATURE HOMES GOES FUJITSU VRF

The new Hokolana Golf Villa subdivision on Maui's Ellaire Golf Course are being cooled with Fujitsu VRF. The homes are 2000 to 2500 sq. ft. and cooled with a single outdoor unit and up to five indoor fan coils. Our sincere thanks to Vincent Slaughter of Signature Homes and Mike Hazen of Aloha Air Conditioning for choosing Fujitsu VRF for this project.

*Fujitsu VRF gives you the look of a central system with the efficiency of a ductless split. A single compact and quiet outdoor unit cools the entire home.*
