THE ONLY COIL CLEANER YOU NEED IS HERE!

Admor HVAC is proud to introduce the new Triple "D" Non Acid Coil Cleaning line to Hawaii. This revolutionary product is suitable for use on condenser and evaporator coils. Unlike competitive products, it is **METAL SAFE** and **DOES NOT ATTACK ALUMINUM OR COPPER COIL COMPONENTS.**

This extends coil life and decreases the potential for refrigerant leaks. Triple "D" is a safer and more versatile product than conventional foam acid or non-acid cleaners. Most products used in Hawaii are foaming acid and non-acid cleaners. These products attack and chemically react with the aluminum coils. This reaction is graphically exhibited by the foaming action that you think is cleaning the coil. In actuality, these other cleaners are dissolving the aluminum, destroying the heat transfer ability and creating the potential for coil leaks and equipment failure. Triple "D" is Super Concentrated, Non-Acid, Biodegradable, non-foaming, non-toxic, metal safe and does not corrode aluminum. Call Admor HVAC for a free demonstration that will show you the many benefits of Triple "D". Free samples available to the first 25 respondents. Call, fax or email Admor HVAC today!
Offer Expires 12/31/2010

ENDING IN DECEMBER

Time is running out on the Federal Tax Credits for Consumer Energy Efficiency. **The program ends this December!** Many of our Rheem & Fujitsu Air Conditioning Systems qualify. Also insulating your home with Ecobatt Insulation from Knauf can qualify for the Tax Credit. Please contact Admor HVAC to find out how you can take advantage of the final days of the Federal Tax Credit..

IN MEMORIAM LEONARD CIUFO OCT 29, 2008
