COMPACT DUCT TYPE SPLIT SYSTEMS

Samsung's Ducted systems offer flexible installation with its slim, compact size and the option to place the air inlet either on the bottom or the rear of the unit. Its Smart Pressure Control system also provides cool air regardless of the surrounding environment.

Samsung's Ducted series air conditioners are equipped with Samsung's Smart Inverter technology which is a combination of cutting-edge technology with exceptional performance characteristics. Fast and powerful cooling is achieved with minimum power consumption. As a result, your electric bills are greatly reduced compared to other conventional systems while the extraordinary comfort that you've come to expect from Samsung is maintained. Now in stock in 12,000, 24,000, 36,000 and 48,000 btuh sizes

Ultra-Quiet and Compact

R410A HORIZONTAL DISCHARGE CONDENSING UNITS

The Quietside QSCU units are specifically designed to provide 13 plus SEER performance from a space saving horizontal discharge condensing unit, allowing installation at the sides of house, under decks, and in other space constrained applications. Quiet noise levels and the R410a refrigerant helps preserve the environment. The unit also features built-in safety controls in the unlikely event of a failure. Admor HVAC is now stocking the 3, 4, & 5 ton units which can be matched with Rheem or other manufacturer air handlers.
