*Armstrong Pumps, Rep West
and Admor HVAC invite you to
attend a free seminar on:*

ACHIEVING ULTRA EFFICIENCY IN YOUR CHILLER PLANT

Achieve significant energy savings with the latest in intelligent central plant optimization of variable speed pumps, chillers and cooling tower fans. Learn about technologies to improve performance and reduce energy consumption.

**Achieve energy savings of 25 to 50% with an ROI of less than two Years!
Realize plant efficiencies of .50 kW per ton on 200 to 10,000 ton chilled
water systems by implementing variable speed plant optimization.**

**Speaker: Mr. Richard Miller, B. Sc., Mechanical Engineering
Armstrong Pumps, Inc.**

**TUESDAY, MARCH 6, 2012
11:30 am to 1:30 pm
Complimentary Buffet Lunch
& Live Pump Demonstration
SAM CHOY'S BREAKFAST, LUNCH & CRAB
580 North Nimitz Highway, Honolulu, HI**

**CALL CHARLIE YOUNG TO REGISTER
808-841-7400 or cyoung@admorhvac.com**
