New Eclipse Duct Board is now in stock. This high quality, affordable product features a unique blackening process coupling a black mat with a black surface dye to provide a deeper black color than other standard boards. The airstream surface of Eclipse Duct Board is treated with an EPA registered, anti-microbial agent that prevents growth of mold, fungus or bacteria. Call for a complete Knauf catalog.

Admor HVAC now stocks Maytag 23 SEER - IQ Drive Inverter Air Conditioning Systems. Available in two, three and four ton sizes, the Maytag IQ Drive features a variable speed Inverter compressor, stainless steel cabinet, plastic base pan and a Swept-Wing fan blade for quiet operation. The systems include a 12 Year Dependability Promise that offers to replace the entire unit if the compressor fails within the first 12 years of operation. The system provides variable cooling capacity as needed modulating over a 5 degree F. temperature range. There is built-in humidity control that reduces blower speed if indoor relative humidity is greater than the set point. All models have a starting amp draw of 16 or less. Call or fax Admor HVAC for more information, catalogs and pricing.
