## ACTUS & RPS GO RHEEM!

Strolling down the streets of Actus Lend Lease new housing project overlooking Pearl Harbor makes you feel like you are in an upscale neighborhood somewhere in Honolulu or Kapolei. The architecture is beautiful, there are spacious lanais and well manicured lawns. Many homes have vast and spectacular views of Pearl Harbor, Hickam AFB and the ocean. Looks like a place you could easily market to young urban professionals or first time homebuyers looking to upgrade. This however is military family housing at Schofield Barracks. Actus has transformed an Army Base with sub standard and dated housing into a "community" with homes that would rival anything in the private sector. We are honored that Actus and RPS Mechanical chose Rheem Central Air Conditioning to cool the families of those who so bravely serve our country. The Rheem 15 SEER systems feature low profile condensing units that have been coated to protect them from salt air and corrosion. The Low Profile Indoor Air Handlers take up very little space and are supported by a fiberglass free plenum made of KoolDuct. Our sincere thanks to Actus and RPS for installing Rheem at Radar Hill, Hauoli Heights and Funston Village. This brings our total Actus/RPS Rheem installations to over 1000 homes in Hawaii! Mahalo!

*Actus Builds a "Community" at Schofield Barracks using Rheem Central A/C.*

*Rheem 15 SEER Outdoor Unit and Vertical Air Handler Keep our Troops Cool!*
