COOL NEWS

September 2011

COOL NEWS GOING DIGITAL

Our Cool News Newsletter has been printed and mailed out in black and white and color since 1995. That is 16 years of printing and postage and well over 500,000 pieces of mail. We are proud to have the longest running monthly HVAC publication in Hawaii and appreciate all of the positive comments we have received about Cool News. Moving forward, Cool News will go green and only be available in digital format. You may subscribe to Cool News by sending us your email address or by logging onto our website, Facebook or Twitter. This will allow our customers and friends to have four different ways to access Hawaii's longest running HVAC Newsletter. Our new digital version will feature more discounts, free gift offers, close-out sales, specials, tech tips, industry news, training videos, product videos, employee news, new products and information that keeps you in the know and ahead of your competition. Stay connected to Admor HVAC by subscribing to Cool News Digital Today! Send us an email or complete and return this form to continue receiving Cool News.
